1. The amendment filed 12/8/03 has been considered and entered. Claims 1-10 remain in the application.

2. In light of the amendment filed 12/8/03, the 35 USC 102 and 103 rejections have been withdrawn.

Allowable Subject Matter

3. Claims 1-10 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest forming a ceramic thick film printed circuit board comprising forming a resin having a thickness ranging from 0.15-2 microns on a substrate, forming a printed pattern on said layer and firing the printed pattern positioned on said layer. The prior art teaches the above steps except that the printed pattern "filtrates" within the resin layer to the substrate prior to firing. Hence, the pattern is held "within" the resin and not "on top" of the resin. In addition, the thickness is critical to the invention, which is not recognized by the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
